Sara Al-Example

IT Support Engineer · Networking · Windows & POS systems

Salmiya, Kuwait | +965 5000 0000 | sara.example@email.com | linkedin.com/in/sara-example | github.com/sara-example

PROFILE

Computer engineering graduate with two years of hands-on IT support for small businesses in Kuwait: networks, Windows PCs and point-of-sale systems. Built a Python diagnostic app that finds the cause of internet outages in seconds. Bilingual (Arabic/English) and comfortable explaining technical problems to non-technical staff.

SKILLS

Support & networking	Windows 10/11, Active Directory basics, TCP/IP, DNS, DHCP, Wi-Fi setup, routers & switches, printers, POS terminals
Programming	Python, C/C++, Bash, Git, GitHub Actions
Languages	Arabic (native), English (fluent)

EXPERIENCE

Freelance IT Technician, Self-employed, Kuwait — Jan 2024 – Present

- Set up and maintain networks, PCs and printers for small retail and office clients across Kuwait.
- Install and troubleshoot point-of-sale systems, keeping checkout running during business hours.

PROJECTS

IT Check (Python, tkinter, PyInstaller) — 2026

- One-click Windows app showing live CPU, memory, disk and ping, with a 4-step internet diagnosis in plain English; tested automatically on Windows and Linux. github.com/sara-example/it-check

EDUCATION

B.Sc. Computer Engineering, Example University, USA — Dec 2023

- Capstone: camera-based smart parking system (C++, image processing). Courses: computer networks, embedded systems, operating systems.

CERTIFICATIONS & ACTIVITIES

- Vice President, student union (USA branch) – organized events for 300+ students
